Market Conditions Advisory: Critical circumstances caused by a unique mixture of global market issues have produced unprecedented challenges in the ambulance industry. Challenges include but are not limited to, extended OEM chassis lead times, severe labor and supply shortages and supplier exits from business. These issues and pent-up demand have caused ambulance industry lead times to accelerate to three (3) and four (4) times the norm. As well, some medical equipment suppliers are passing along price increases on their supplied equipment on short notice. These price increases will be passed along to you as received from the vendor. As an example, Stryker patient handling systems, Liquid Spring suspension systems and fuel/DEF costs have increased rapidly on short notice.

Notice for Used Vehicles: If the vehicle(s) sold by Dealer under this order is sold as used or pre-owned vehicle, the unit is sold "AS IS" and Dealer makes no guarantee of any nature whatsoever in connection with the purchase of used vehicle(s), expressed or implied, (including no warranty that the odometer represents the actual mileage) or any implied such mileage.
