Conduct a public hearing and consider an ordinance for Application No. Z0419-0092, submitted by Dan Warfield of Half Associates, Inc., for a change of zoning from Planned Development - Commercial Ordinance No. 2067 to Planned Development - Industrial to allow an industrial multi-tenant business park, located at 1650 Republic Parkway.

(Two responses in favor and none in opposition to the application have been received from property owners within the statutory notification area. The Planning and Zoning Commission recommends approval with certain stipulations.)

A public hearing was held for Application No. Z0419-0092.

Garrett Langford, Manager of Planning and Zoning, stated that the applicant is proposing to construct five multi-tenant industrial buildings, containing a total of just under one million square feet. Parc 30 North, located north of Republic Parkway, will consist of three multi-tenant industrial buildings totaling approximately 680,000 square feet. Parc 30 South, located south of Republic Parkway, will consist of two multi-tenant industrial buildings totaling approximately 310,000 square feet. The natural tree line would serve as a living screen between Dallas Christian School and the proposed industrial buildings. Mr. Langford reviewed the stipulations for the application.

Jason Nunley, representing the applicant, stated that the proposed project is a \$70 million master-planned business park with detailed attention given to building orientation, site lines, landscaping, lighting, colors and textures. They work to attract relocating corporations and retain existing growing businesses with approximately 900 jobs. The site presents numerous challenges such as a 60-foot elevation change requiring heavy earthwork and retaining walls, 75-foot high pressure gas line running through the property and jurisdiction waters controlled by the U.S. Army Corps of Engineers.

Dr. Chris King, representing Dallas Christian School, spoke in favor of the application.
