Project Name: **City of Mesquite, TX – Gross Road Sewer Rehab  
10" Sanitary Sewer Rehabilitation by Pipe Burst**

INSITUFORM TECHNOLOGIES, LLC herein proposes to furnish all labor, materials, equipment, and services necessary to reconstruct the referenced project (as detailed by the City of Mesquite) utilizing the Texas Statewide Cooperative Purchasing Contract #555-18 administered through the BuyBoard.

## ASSUMPTIONS AND QUALIFICATIONS

Laterals. During TV inspection all side sewers are verified, using best practical efforts, to determine if each is an active hook up. Normal practice only reinstates those that are active. You may direct us to reinstate all, or specific laterals, as you desire. This proposal, unless otherwise stated, assumes that all laterals will be reconnected externally. Specific service connections will not be reconnected only when written directions are received from the Owner.

Insituform Technologies, LLC will supply the City of Mesquite Performance and Payment Bonds and a 1-year Maintenance Bond with Certificate of Insurance as required, following acceptance of this proposal.

The pricing in this proposal assumes that all Technical Specifications set forth by the BuyBoard will be strictly adhered to. Any changes to these specifications must be noted and agreed upon by both parties prior to finalizing the proposal pricing.

Water shall be provided at no cost to Insituform Technologies, LLC for all construction phases of this project. Insituform Technologies, Inc. will follow all required deposit, backflow prevention, and metering procedures.

**The City of Mesquite is responsible for obtaining all permits (including TXDOT), staking, and survey work that is determined to be necessary to complete the project.**

### **Special Notes:**

1. The pricing in this proposal takes into account current material prices only. If material prices change prior to approval, price adjustments may be necessary.
2. No as-built drawings were provided by the City of Mesquite. All quantities are estimates only from above ground assessment of the project prior to establishing prices. The final invoice will reflect actual field quantities for all items.
3. Concrete encasement, surrounding utility interference, or other sub surface conditions not anticipated at the time of this proposal will be considered changed conditions and may result in price adjustments by change order.
4. The City of Mesquite will be responsible for all permit application fees.

**PROPOSAL TERMS AND CONDITIONS**

Terms and Conditions from the Texas Statewide Cooperative Purchasing Contract are available upon request from the BuyBoard. Any changes to these conditions must be noted and agreed upon by both parties.
