PRESENTATIONS

4 Presentation for Brickyard Cemetery Monument.

City Manager Cliff Keheley stated that efforts to raise funds for a permanent marker at the Brickyard Cemetery (Cemetery) began nearly 20 years ago. Schuyler Marshall, Sr., opened the Dallas Pressed Brick Company (DPBC) in 1904 and donated several acres of his land to the African American workers in his company for a church, school, homes and cemetery. The DPBC was sold in the 1920s to the Ferris Brick Company, which was eventually closed in the 1950s with the last burial believed to be in 1945. The land and houses were abandoned and all structures were cleared for other development. The Cemetery was not registered with the State of Texas or Dallas County and the headstones were removed due to deterioration.

Mr. Keheley stated that in the late 1990s Les Callison, real estate representative, worked with the property owners to sell the property to the City of Mesquite for a reduced price. After the City acquired the property, an archeological study was performed and gravesites were located and surveyed for permanent record. A historical designation was obtained from the State of Texas and efforts began to memorialize those buried in the Cemetery. Johnny Booth and William Richardson donated their architectural services to design a memorial for this project. Last year, Teia Collier expressed renewed interest to help finalize the project.

Mr. Keheley stated that Charlene Orr, Historic Preservation Officer, guided the City through the necessary steps to preserve the site. She helped secure the funds for the purchase of the property, guided the archeological study and obtained the state historic designation. Mr. Keheley explained that Denise Upchurch was the heart and soul of this project. She had the passion to ensure this was not a forgotten piece of Mesquite's history and worked tirelessly by attending meetings and working to raise funds for this project.

Mr. Keheley expressed appreciation to Les Callison, Johnny Booth, William Richardson, Debbie Anderson, Janice Bell, Ron Abraham, Sherry Williams, Henry Brown, Donna Woodard, Jordan Gortmaker, Judge Bill Holloman, Charlene Orr and Denise Upchurch for their efforts in securing an appropriate memorial for the Brickyard Cemetery. The total funds raised to date are over \$15,000.00 including a donation tonight of \$7,000.00 from Historic Mesquite, Inc. Dedication of the marker is scheduled for the summer of 2018.

3 Recognize City Engineers in conjunction with National Engineers Week.

Matt Holzapfel, Director of Public Works, stated that the Public Works Department has eight divisions with over 250 staff members. Supporting the department is seven licensed civil engineers and two graduate civil engineers. Civil engineers hold to a code of ethics to use their knowledge and skill for the enhancement of human welfare and to hold paramount the safety, health and welfare of the

public. Civil engineers strive to impact and improve the quality of citizen's lives with well-designed roadways and transportation systems, drainage and flood control systems, and water and wastewater systems. A brief video was shown describing the various responsibilities of the nine engineers.

Mayor Pickett presented Mr. Holzapfel with a proclamation declaring February 18-24, 2018, as "National Engineers Week." The Mayor, City Council and City Manager presented certificates to the following engineers: Yang Jin, Traffic Engineer; Srinu Mandayam, Manager of Traffic Engineering and Street Lighting; John Stanley, Project Engineer; Jonathan Browning, Graduate Engineer; Christina Hickey, Infrastructure Manager; Curtis Cassidy, Assistant City Engineer; Corey Nesbit, City Engineer; and Matt Holzapfel, Director of Public Works. Kim Buttram, Assistant Director of Economic Development, stated that GPS Inventory Solutions (GPS) purchased and invested \$1 million in building renovations in 2011. GPS manages slow moving inventory for other companies and has two additional warehouse locations in Forney, Texas, and Knoxville, Tennessee. The proposed Chapter 380 agreement allows for the reimbursement of Roadway Impact Fees for each of the two proposed expansions. Phase 1 would include construction of an additional 50,000 square feet of warehouse space with an estimated completion by the end of 2018 and Phase 2 would include an additional 40,000 square feet with estimated completion by the end of 2022. The total incentive reimbursement of both phases is approximately \$62,000.00. GPS will lease at least 50 percent of the new square footage.

Loretta Wallace, President of GPS Inventory Solutions, stated that GPS Inventory Solutions (GPS) is a family-owned business, which purchased the building

located at 2202 Scyene Road as a bank foreclosure in 2011. The proposed expansion includes increasing the building height to 25 feet in the new additions. Ms. Wallace displayed renderings of the proposed expansions.

The existing permitted use requires buildings to be located at least 500 feet from any residential district. Mr. Armstrong reviewed the reception facilities regulations – hours of operations, security, outside activities, premises condition, owner representative and compliance with applicable laws and additional provisions.
