## Terms & Conditions for Quoted Freight

- The quoted freight rate is valid for 30 days, after which time the quoted freight rate is subject to change. In the event of a change, the adjusted freight rate will be communicated ahead of shipment.
- Fuel surcharges are subject to market fluctuation and actual surcharges invoiced by the carrier will be invoiced to the customer.
- Otto orders are assumed to ship when ready unless prior arrangements have been made via your Otto contact. In the absence of prior arrangements, storage charges may accrue and be invoiced for any items held more than 30 days from the date of completion of your order.
- Quoted freight rates are based upon shipment of your order during regular shipment days (Monday - Friday). Should after hours, weekend, or holiday shipment be needed, additional fees will apply, and the corresponding freight rate will be communicated ahead of shipment.
- Should you require weekend shipping, these freight rates will be quoted separately, as they are normally higher in cost than shipments during the regular workweek (Monday - Friday).
- Quoted freight rates assume shipping of your order 48 hours from the time of order completion. Customer will be charged for shipment premiums requested by a customer before the minimum 48-hour notice.
- Should a delivery address change before the shipment of your order, an adjusted freight rate will be communicated ahead of shipment. Should a delivery address change after the shipment of your order, a reconsignment fee will be charged once all updated charges are known by the carrier.
- Detention Fees - If customer holds up driver at destination and carrier charges Otto detention fees (typically after 2 hours), customer will be invoiced the actual charge along with an administration fee.
