A resolution authorizing the City Manager to execute Supplemental Agreement No. 1 to the interlocal agreement with the Mesquite Independent School District for development, operation and use of the Health and Wellness Clinic and Pharmacy.

On August 21, 2006, the City of Mesquite and Mesquite Independent School District (MISD) entered into an interlocal agreement for the development, operation and use of a health and wellness clinic and pharmacy, otherwise known as the Mesquite Employee Health Clinic (MEHC). Based on a recent review of MEHC operations and procedures it was determined that the cost sharing formula identified in Section 4 of the interlocal agreement is different from the formula used in current operations. The cost sharing formula as noted in the original agreement states the following:

“The percentage to be paid by each party shall be initially established based upon the list of employees and dependents certified by each entity as qualified to participate in the services offered by the clinic; and, shall be adjusted annually based upon actual use of the clinic by each parties’ qualified employees and dependents during the preceding year.”

The cost sharing formula is actually adjusted monthly based on the actual use of the clinic in the previous month. Both parties agree that monthly updates to the formula are more appropriate and that the interlocal agreement should be updated to read as follows:

“The percentage to be paid by each party shall be initially established based upon the list of employees and dependents certified by each entity as qualified to participate in the services offered by the clinic; and, shall be adjusted monthly based upon actual use of the clinic by each parties’ qualified employees and dependents during the preceding month.”

Recommended/Desired Action

Staff recommends approval of the resolution.
