Bid No. 2017-034 - Purchase of Digital In-Car Video System for Police.
(Staff recommends award to sole source provider Enforcement Video, LLC, in the amount of \$627,060.00.)

Police Department

\$750,000.00

\$627,060.00

The Police Department has used the WatchGuard 4RE digital in-car video system for the past four years. The system has proven to be very reliable, meets or exceeds the City's technical requirements in all areas and provides a complete turnkey solution for the integration of the WatchGuard Vista body worn cameras. The IT Department has received a quote for a system replacement in the amount of \$627,060.00 on a sole source bid from Enforcement Video, LLC. The new system will offer more in-car video storage, a new camera system with a wider panoramic forward view and a four-year warranty. Approximately \$45,000.00 of the remaining budgeted money will be used to upgrade the wireless and core network infrastructure that is used to upload the in-car video. The improved network upgrades will triple the network performance from the vehicles allowing the Police Department to access the uploaded videos faster and return to patrol sooner.

Staff recommends award to sole source provider Enforcement Video, LLC.
